LIST OF CONTENTS

VOLUME 25 NUMBER 1 APRIL 1988

J. Baker, C. Wickland, J. Goldberg and **B. Peterson**	Motor output to lateral rectus in cats during the vestibulo-ocular reflex in three-dimensional space	1
I. López and **G. Meza**	Neurochemical evidence for afferent GABAergic and efferent cholinergic neurotransmission in the frog vestibule	13
K. J. Anderson, R. B. Gibbs and **C. W. Cotman**	Transmitter phenotype is a major determinant in the specificity of synapses formed by cholinergic neurons transplanted to the hippocampus	19
P. Brodal, G. Mihailoff, B. Border, O. P. Ottersen and **J. Storm-Mathisen**	GABA-containing neurons in the pontine nuclei of rat, cat and monkey. An immunocytochemical study	27
M. Steriade, D. Paré, A. Parent and **Y. Smith**	Projections of cholinergic and non-cholinergic neurons of the brainstem core to relay and associational thalamic nuclei in the cat and macaque monkey	47
D. Paré, Y. Smith, A. Parent and **M. Steriade**	Projections of brainstem core cholinergic and non-cholinergic neurons of cat to intralaminar and reticular thalamic nuclei	69
G. F. Martin, T. Cabana and **R. Waltzer**	The origin of projections from the medullary reticular formation to the spinal cord, the diencephalon and the cerebellum at different stages of development in the North American opossum: studies using single and double labeling techniques	87
K. Kitahama, L. Denoroy, M. Goldstein, M. Jouvet and **J. Pearson**	Immunohistochemistry of tyrosine hydroxylase and phenylethanolamine *N*-methyltransferase in the human brain stem: description of adrenergic perikarya and characterization of longitudinal catecholaminergic pathways	97
J. Kohno, K. Shinoda, Y. Kawai, T. Ohuchi, K. Ono and **Y. Shiotani**	Interaction between adrenergic fibers and intermediate cholinergic neurons in the rat spinal cord: a new double-immunostaining method for correlated light and electron microscopic observations	113
M. Śmiałowska	Neuropeptide Y immunoreactivity in the locus coeruleus of the rat brain	123
M. E. Appleyard, J.-L. Vercher and **S. A. Greenfield**	Release of acetylcholinesterase from the guinea-pig cerebellum *in vivo*	133
J. P. Brion, J. Guilleminot, D. Couchie, J. Flament-Durand and **J. Nunez**	Both adult and juvenile tau microtubule-associated proteins are axon specific in the developing and adult rat cerebellum	139
K. Halasy, I. Benedeczky, É. Fekete, L. Tóth and **R. Gábriel**	Enteric neuromuscular junctions: comparison of ultrastructural features in different phylogenetic groups	147
I. Benedeczky and **K. Halasy**	Visualization of non-synaptic release sites in the myenteric plexus of the snail *Helix pomatia*	163
K. Tamura, J. M. Palmer and **J. D. Wood**	Presynaptic inhibition produced by histamine at nicotinic synapses in enteric ganglia	171

T. Green and G. J. Dockray	Characterization of the peptidergic afferent innervation of the stomach in the rat, mouse and guinea-pig	181
P. K. Mulderry, M. A. Ghatei, R. A. Spokes, P. M. Jones, A. M. Pierson, Q. A. Hamid, S. Kanse, S. G. Amara, J. M. Burrin, S. Legon, J. M. Polak and S. R. Bloom	Differential expression of α-CGRP and β-CGRP by primary sensory neurons and enteric autonomic neurons of the rat	195
A. R. Rittenhouse, M. A. Schwarzschild and R. E. Zigmond	Both synaptic and antidromic stimulation of neurons in the rat superior cervical ganglion acutely increase tyrosine hydroxylase activity	207
V. H. Perry and L. C. L. Silveira	Functional lamination in the ganglion cell layer of the macaque's retina	217
V. H. Perry and A. Cowey	The lengths of the fibres of Henle in the retina of macaque monkeys: implications for vision	225
G. F. Jirikowski, J. D. Caldwell, C. A. Pedersen and W. E. Stumpf	Estradiol influences oxytocin-immunoreactive brain systems	237
S. Schwartz-Giblin, M. Canonaco, B. S. McEwen and D. W. Pfaff	Effects of *in vivo* estradiol and progesterone on tritiated flunitrazepam binding in rat spinal cord	249
S. McLean and E. Weber	Autoradiographic visualization of haloperidol-sensitive sigma receptors in guinea-pig brain	259
M. I. Glavinović and T. Narahashi	Depression, recovery and facilitation of neuromuscular transmission during prolonged tetanic stimulation	271
M. I. Glavinović	Effect of blockade of choline uptake by hemicholinium-3 on synaptic output	283
S. Mitani and H. Okamoto	Monoclonal antibodies against larval nervous system of *Xenopus laevis*: their specificities and application to analysis of neural development	291
J. M. Palacios, A. Pazos, M. M. Dietl, M. Schlumpf and W. Lichtensteiger	The ontogeny of brain neurotensin receptors studied by autoradiography	307
W. G. Thomas and C. Sernia	Immunocytochemical localization of angiotensinogen in the rat brain	319
D. Obendorf, U. Schwarzenbrunner, R. Fischer-Colbrie, A. Laslop and H. Winkler	Immunological characterization of a membrane glycoprotein of chromaffin granules: its presence in endocrine and exocrine tissues	343
A. Kaji, H. Shigematsu, K. Fujita, T. Maeda and S. Watanabe	Parasympathetic innervation of cutaneous blood vessels by vasoactive intestinal polypeptide-immunoreactive and acetylcholinesterase-positive nerves: histochemical and experimental study on rat lower lip	353

VOLUME 25 NUMBER 2		MAY 1988
COMMENTARIES		
R. G. Brown and C. D. Marsden	'Subcortical dementia': the neuropsychological evidence	363
C. A. Marsden, M. H. Joseph, Z. L. Kruk, N. T. Maidment, R. D. O'Neill, J. O. Schenk and J. A. Stamford	*In vivo* voltammetry—present electrodes and methods	389

RESEARCH PAPERS

R. E. Powers, R. G. Struble, M. F. Casanova, D. T. O'Connor, C. A. Kitt and **D. L. Price**	Innervation of human hippocampus by noradrenergic systems: normal anatomy and structural abnormalities in aging and in Alzheimer's disease	401
C. M. Waters, R. Peck, M. Rossor, G. P. Reynolds and **S. P. Hunt**	Immunocytochemical studies on the basal ganglia and substantia nigra in Parkinson's disease and Huntington's chorea	419
K. N. Westlund, R. M. Denney, R. M. Rose and **C. W. Abell**	Localization of distinct monoamine oxidase A and monoamine oxidase B cell populations in human brainstem	439
F. P. Eckenstein, R. W. Baughman and **J. Quinn**	An anatomical study of cholinergic innervation in rat cerebral cortex	457
J. H. Kim, J.-J. Wang and **T. J. Ebner**	Alterations in simple spike activity and locomotor behavior associated with climbing fiber input to Purkinje cells in a decerebrate walking cat	475
A. M. Thomson	Inhibitory postsynaptic potentials evoked in thalamic neurons by stimulation of the reticularis nucleus evoke slow spikes in isolated rat brain slices—I	491
A. M. Thomson	Biphasic responses of thalamic neurons to GABA in isolated rat brain slices—II	503
R. M. Wightman, C. Amatore, R. C. Engstrom, P. D. Hale, E. W. Kristensen, W. G. Kuhr and **L. J. May**	Real-time characterization of dopamine overflow and uptake in the rat striatum	513
B. J. Morris, V. Höllt and **A. Herz**	Dopaminergic regulation of striatal proenkephalin mRNA and prodynorphin mRNA: contrasting effects of D_1 and D_2 antagonists	525
M. N. Williams and **R. L. M. Faull**	The nigrotectal projection and tectospinal neurons in the rat. A light and electron microscopic study demonstrating a monosynaptic nigral input to identified tectospinal neurons	533
M. Takada, Z. K. Li and **T. Hattori**	Collateral projection from the substantia nigra to the striatum and superior colliculus in the rat	563
M. N. Wallace	Lattices of high histochemical activity occur in the human, monkey, and cat superior colliculus	569
I. Kakucska, M. L. Tappaz, Gy. Gaal, M. E. Stoeckel and **G. B. Makara**	GABAergic innervation of somatostatin-containing neurosecretory cells of the anterior periventricular hypothalamic area: a light and electron microscopy double immunolabelling study	585
L. Velley, C. Verney, E. Kempf and **B. Berger**	Opposite effects of ibotenic acid and 6-hydroxydopamine lesions of the lateral hypothalamus on intracranial self-stimulation and stimulation-induced locomotion	595
P. W. J. Burnet, D. Bretherton-Watt, M. A. Ghatei and **S. R. Bloom**	Cerebellin-like peptide: tissue distribution in rat and guinea-pig and its release from rat cerebellum, hypothalamus and cerebellar synaptosomes *in vitro*	605
T. Araki, M. Yamano, T. Murakami, A. Wanaka, H. Betz and **M. Tohyama**	Localization of glycine receptors in the rat central nervous system: an immunocytochemical analysis using monoclonal antibody	613

D. J. Withington-Wray, S. W. Mifflin and K. M. Spyer	Intracellular analysis of respiratory-modulated hypoglossal motoneurons in the cat	1041
M. L. Epstein, J. P. Davis, L. E. Gellman, J. R. Lamb and J. L. Dahl	Cholinergic neurons of the chicken ciliary ganglion contain somatostatin	1053
P. Ekström and H. Meissl	Intracellular staining of physiologically identified photoreceptor cells and hyperpolarizing interneurons in the teleost pineal organ	1061
H. Meissl and P. Ekström	Photoreceptor responses to light in the isolated pineal organ of the trout, *Salmo gairdneri*	1071
F. Pongrácz, J. Martos and F. Zsuppán	Nerve cells with irregular processes: demonstration of anisotropic core geometry of a pyramidal cell	1077
J. Mellanby, M. A. Beaumont and P. A. Thompson	The effect of lanthanum on nerve terminals in goldfish muscle after paralysis with tetanus toxin	1095
